SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Regional EOC	Coastal Regional EOC	Southern Regional EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES INLAND REGION

Stanislaus River Erosion Incident, San Joaquin County (FINAL)

On 12/13/19 at 1503 hours, the California State Warning Center was notified by the Department of Water Resources Flood Operations Center (FOC) of significant erosion occurring on a bank on the Stanislaus River.

- No flooding is occurring and there is no emergency at this time.
- The site is on the right bank of the Stanislaus River at approximately Levee Mile 2.4.
- Reclamation District (RD) Engineers believe the damage was caused by a falling tree. The tree caused the water to swirl causing the erosion.
- As of 12/27/19, work related to the Stanislaus River levee issue has been completed.
 - Rock has been placed over the eroded bank, levee toe and water side to protect from further erosion; the threat of flooding has been reduced.
- The DWR Flood Operations Branch will continue to monitor weather conditions and coordinate with local maintaining agencies to assess and address any high water impacts.
- RD 2064 staff will continue monitoring the site.

Activations

- **State-Federal** Flood Operations Center (FOC) is activated at their lowest level. (Deactivated as of 12/27/19, 1700 hours.)

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Nothing significant to report.

FIRE ACTIVITY

CALIFORNIA 911 SYSTEM

CA 911 Outages		
Northern California	Central California	Southern California
911 Outages	No 911 Outages	No 911 Outages

9-1-1 Outages/Remote/Community Isolations

Central Office Isolation, Camp Nelson, Tulare County ([Update](#))

On 12/27/19 at 0103 hours, the CA 911 Branch advised the California State Warning Center that AT&T reported a Central Office Isolation for Camp Nelson, Tulare County.

- Wireless 911 calls are not impacted.
- 730 landlines are impacted.
- The affected area is mostly seasonal cabins and not inhabited during winter.
- [Testing has been conducted and detected an issue within the radio network equipment and AT&T is working to resolve the trouble.](#)
- Estimated time of repair is unknown.

Service Interruptions

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A fast moving winter system will push through the Sierra and western Nevada late Sunday afternoon through Monday morning, bringing light snow and potential travel impacts.
- Gusty northeast winds will follow for Monday into Tuesday with single digit to below zero wind chills in the mountains and choppy conditions on Lake Tahoe.

SOUTHERN CALIFORNIA

- Another winter storm will drop south along the Coast Monday. There is a potential for significant snowfall and gusty winds in the Southern California mountains from Sunday evening through Tuesday morning for portions of Ventura County Los Angeles County and portions of Kern County Desert Counties.

WEATHER KEY POINTS

12/28/19 - 01/03/20

Saturday

- Dry conditions and warming temperatures across the state with no significant impacts

Sunday-Tuesday

- Rain and mountain snow showers are expected across Coastal and Inland Regions on Sunday, then shifting into Southern Region Sunday night through early Tuesday
 - A quick round of mountain snow could cause travel impacts
 - Though the snow amounts and duration will both be less than the storm earlier this week, significant travel impacts are still possible due to accumulating snow, especially in Southern Region
 - In Southern Region on Monday, snow levels could drop to 2,500 feet, impacting lower elevation roadways including the Grapevine
 - Locally moderate to heavy rainfall could produce minor flooding concerns, but significant impacts on burn scars are not expected
 - There is a chance of thunderstorms Sunday and Monday, primarily along the coast
- Gusty northeasterly winds may develop across prone areas of Inland and Southern Regions on Monday and Tuesday, with gusts up to 50 mph possible in Southern Region

Wednesday-Friday

- A couple of storm systems may track across northern California, with dry weather for the rest of the state
 - No significant impacts are currently expected

CALIFORNIA WEATHER IMPACTS

12/28/19 - 01/03/20
